Definitions

Generation Rate is the cost of creating electricity to power your home or business. The generation rate varies based on your energy provider and the resources included in your energy provider's generation supply.

PG&E Delivery Rate is a charge assessed by PG&E to deliver electricity to your home or business. The PG&E delivery rate depends on your electricity usage but is charged equally to both CleanPowerSF and PG&E customers.

PG&E PCIA/FF represents the Power Charge Indifference Adjustment (PCIA) and the Franchise Fee surcharge (FF). The PCIA is a charge to ensure that both PG&E customers and those who have left PG&E service to purchase electricity from other providers pay for above market costs for electric generation resources that were procured by PG&E on their behalf. 'Above Market' refers to the difference between what the utility pays for electric generation and current market prices for the sale of those resources. Visit www.pge.com/cca

Where Do I Find My Electric Rate Schedule?

Need some help finding your electric rate? Go to the "Electric Delivery Charges" section of your energy statement - you'll find your electric rate in the upper left.

The image shows a screenshot of a PG&E Energy Statement. The top header includes the PG&E logo, the text "ENERGY STATEMENT", the website "www.pge.com/MyEnergy", and account details: "Account No: 1023456789-0", "Statement Date: MM/DD/YYYY", and "Due Date: MM/DD/YYYY".

The main section is titled "Details of PG&E Electric Delivery Charges" and includes a date range "MM/DD/YYYY - MM/DD/YYYY (29 billing days)". Below this, it lists "Service For: 1234 Main Street", "Service Agreement ID: 0007854321", and "Rate Schedule: E1 S Residential Service". A yellow box highlights the "Rate Schedule" text, with a yellow line pointing to the explanatory text below.

To the right of the main section is a "Service Information" table with the following data:
