### Other Rate Information

#### PG&E Electric Rates

CleanPowerSF does not provide a full listing of PG&E's generation or non-generation rates, as those rates are subject to change over the course of the year. The most up-to-date information on these rates can be located within PG&E's tariff sheets, available on their website at: [pge.com/tariffs/ERS](http://pge.com/tariffs/ERS). For comparison purposes, generation rates are listed under the "Unbundling of Total Rates," which is found after the listing of "Total Rates." All other charges that comprise PG&E's "bundled" charges (such as distribution, transmission, tiering adjustments, and other charges) are assessed equally to CleanPowerSF customers.
